Superior Selected to Sell

Jascha Heifetz Collection

See Highlights on the following two pages

Superior Galleries is pleased to announce that it has been selected to sell the fabulous collection of Jascha Heifetz. The material will be sold on two occasions: first, on October 1, 2, 3 and 4 in Los Angeles, when an outstanding collection of United States coins will be sold, and later in New York on December 9 and 10, 1989. This sale will be in conjunction with the New York International Numismatic Convention and will feature an incredible collection of Russian material.

Heifetz, the renowned violinist, was born in Lithuania in 1901 and passed away in 1987. He became famous for his international tours and numerous recordings, and appeared as a soloist with virtually every great orchestra of the world. He was considered by many qualified critics to have raised to new heights the level of violin virtuosity. Because of his reputation of being the world's best known violinist, he was often the first performer approached to play the works of contemporary composers.

Heifetz was a man of unusual brilliance and was considered by many to be a genius. When he was three years of age his father began to teach him to play the violin. At the age of five, he entered the Imperial School of Music in Vilna, Lithuania. He later studied with the famous teacher, Leopold Auerm in St, Petersburg, Russia. By the time he turned six he was playing in public and at 13 made his debut in Berlin, winning international acclaim. During the Russian Revolution Heifetz escaped to the United States and in 1925 became a U.S. citizen.

Visiting the Heifetz residence in Beverly Hills, California, provided us with the opportunity to learn more about this incredible person. His brilliance was not limited to his mastery of the violin. Heifetz also had an unusual knowledge of coins, and his respect for rarity and quality are very evident from examing the coins of his collection. We seldom see collections today, formed in the 1920's and '30's, that exhibit the quality of these coins. Heiftez understood numismatics, and many other subjects as well, as few from that era did.

Some of the specific holdings Superior will auction include a very extensive group of high grade California Fractional Gold coinage. Some of the specimens have been traced to the "Comstock Sale," which was held in 1935. "Breen Gillio" indicated that some of these specimens, while originally known, have previously been "unlocated" and the current edition of this volume is missing these photographs.

Additionally the collection is rich in Territorial Coinage and Patterns. A fabulous high grade Continental Dollar will also be featured, plus an extensive holding of extremely high grade commemorative halves. A very large group of high grade $2.50 gold piece from 1802 through 1929 is another highlight. Sizable runs of $5, $10 and $20 gold pieces are also included in the collection. Among the gold coins are several proof specimens. Specialists in tokens and medals will want to carefully examine several tokens and medals included in the sale.

Another phase of this sale will be the Albert Hanten Collection of United States Currency. This will be the largest collection of currency Superior Galleries has ever handled at auction—hundreds and hundreds of notes, with much emphasis on the Nationals. This is the one sale no one will want to miss.

Consigments for the Jascha Hiefetz Auction Sale are still being accepted. Choice and quality material may still be submitted for this sale, although we are limited in space due to the quantity of lots contained in these two major sales. Contact Superior immediately to discuss the possibilty of including your rare coins in this major sale.

Catalogues for the October and December sales are $20 each, or a subscription for one year to all of Superior's catalogues is available at just $60 (a savings of over $50). Call Superior at 1-800-421-0754 or, in California, at 1-213-203-9855 to discuss consignments for this sale or to order your catalogue by credit card. NEW TREND in Examining Rare Coins

If you have recently attended rare coin auction sales, you may have observed that the latest trend in examining rare coins is in a darkly lit room and a powerful single source of lighting. The purpose behind this type of viewing is rather simple. By eliminiating outside light sources and allowing a single powerful light source to provide the lighting, we find that glare is no longer a problem and the coin can be maneuvered to provide a more controlled vision.

The interesting feature here is that this manner of viewing coins is being utilized by several of the major grading laboratories and thus by utilizing the same principle one is more likely to be able to examine a coin and better predict how the coin will be graded if sent in for a certificate.

We are pleased to announce that Superior Stamp & Coin is distributing both the light source and the magnifier which are being used to grade coins by some of these grading laboratories. It has been no secret within the trade that our line of halogen lights and magnifiers have been great sellers. We are pleased to provide this listing of our more popular products. We have placed an asterisk beside the two items being used by these laboratories. All represent great quality and will serve you for many years.

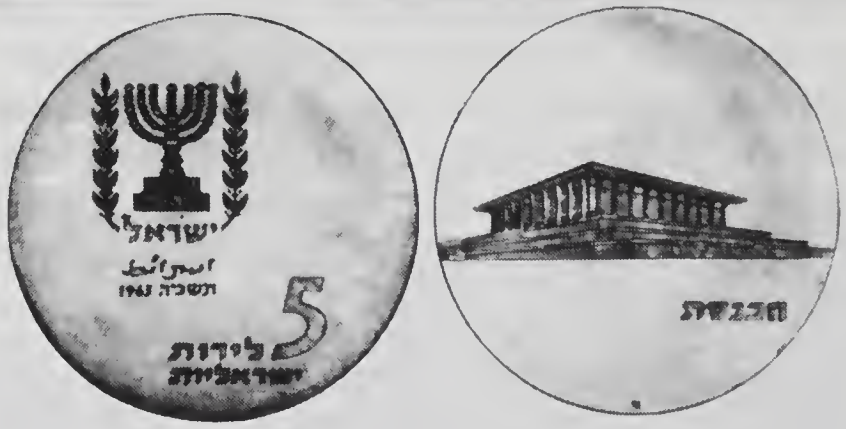
ATTENTION
TONING ENTHUSIASTS



We have an example of what may be the desirable toning we have seen in some time. We came across a small lot of Israel 1965 Knesset 5 pound Silver Crowns which have been stored since issued over 24 years ago in their original box of issue. The combination of time and contents of the paper box and packing has created a masterpiece as far as toning is concerned. The iridescent array of rainbow colors are certain to attract attention and we know that many of you who collect coins for their toning attributes will be interested. Each is virtually identical to the next as far as variation goes. Each specimen has the "M" designation indicating that it is struck as "Proof".

Gaming Tokens actually INCREASE in value

When originally issued back in 1967 these beautiful sterling silver gaming tokens always had one potential resort for the holder: Travel to Nevada and risk it in a machine or on the table. Much has happened since 1967 and the price of silver is quite a bit higher than back then. With a total weight 26.2 dwts. its current silver value at $7.75 is over $10. How can you go wrong at $12.50 each? We have just a few hundred of these tokens all in beautiful proof-like striking. Each was struck at the Franklin Mint with a total reported mintage of just 1550 pieces.

1964 Tokyo Olympic Labels

Collection of 6 sheets of 20 stamps all with the same design but printed in salmon, blue, yellow, violet, green and orange.

These sheets are quite scarce as they were never actually issued. After they were printed the Japanese government decided that since the designer wasn't Japanese it wouldn't look right for these to be official labels. The contract therefore got cancelled.

These sheets are quite attractive. We feel you can't help but like them.

Special set of 6 sheets $9.95 Order No. 02-047
per 10 sets $75.00 Order No. 02-048

THE LEPTON OF PONTIUS PILATE

Photo Enlarged

Pontius Pilate the procurator of Judaea, placed there by the Roman emperor Tiberius, is known to all for his delivery of Jesus to the crucifixion, April 17, A.D. 30:

> Matthew 27:14 -- When Pilate saw that he could not prevail, but rather a tumult was made, he took water and washed his hands before the multitudes saying, I am innocent of the blood of this person: see ye to it.

A further reference to Pontius Pilate is also found:

> John 18:28, 19:42 -- Pilate then went out into them, and said, What accusation bring ye against this man?....etc.

Coined in A.D. 30 - 31, each Pontius Pilate lepton we offer exhibits an augur's wand (appears as an upside-down umbrella handle), the famous telltale device which is totally unique to this coinage. This curious looking device relates to Pilate's position as an ardent believer in augury.

This type coin which was in daily use must have truly angered the Children of Israel. Ever since the time of Moses, Jews were taught the evils of divining or augury in any form.

Judaea
Bronze lepton of Pontius Pilate
Procurator under Tiberius, coined A.D. 30 - 31
Obverse: **Augur's wand encircled by the name Tiberius (nearly always illegible)**
Reverse: **The date of Tiberius' reign within a wreath.**
Condition **Very Good to Fine, with the augur's wand clearly discernible.**

SMALL HOARD OF RARE HALF PENNY TOKENS LOCATED

Some years ago we offered a rare 1815 half penny token which was discovered in a collection of early coinage purchased in Maine. The hoard consisted of some 200 pieces and these were sold by us several years ago at $27.50 each. Included with each piece was a copy of the documentation which accounts for the original discovery. The documentation cites that some 75 pounds of these tokens were originally discovered and sold to an attorney F.C. Saunders of Bedford Quebec.

It appears that in the early 1800's in Canada, a shortage of hard currency existed and tokens such as these were accepted for payment in amounts under 5c. They were also used as payment for postage. Today, tokens such as these are widely collected by numismatists and included with each token is a copy of a letter from the numismatist Renaud dated in July of 1927 where he is attempting to purchase the hoard from Saunders.

Saunders wrote to the famous numismatist Breton who advised that the tokens were acceptable for exchange although if the condition of the tokens was high grade, these would be worth a premium which he offered to purchase. The copy of this documment is also included with each token.

We have located just 50 of these mint state (slightly toned) copper tokens. We believe that these tokens should be sold at $37.50 although we will offer them at the last price they sold at for just $27.50 which includes copies of all documentation mentioned. Just 50 of these are available so we suggest a prompt phone call to reserve your order.

Coins of the Bible

Hasmonaean Dynasty $15.50

First Revolt $17.50

Roman Procurators $19.50

From the Holy Land comes this group of bronzes called prutot (singular "prutah"), the small change of the lands of the Bible. The choice of type is yours. The following is represented:

Hasmonaean Dynasty: 103-37 B.C. Most coins are of the inscription / double cornucopiae type and were the basic medium of exchange during the 1st century B.C. These are often referred to as "Widow Mites." The value of the prutah is related to the Greek silver drachm: 1 silver drachm = 6 silver obols = 48 AE chalkoi = 168 AE prutot = 336 AE Lepta. In relation to the then current shekels of Tyre, one silver shekel = 6.72 AE prutot. Later, this relationship changed slightly.

First Revolt: 66-70 A.D. While these coins were minted huge stones were being hurled and battering rams were used to raze the fortified walls of Jerusalem. The bronzes are dated, most all of year two (A.D. 67).

Roman Procurators: 6-66 A.D. The fourteen men appointed to this post by the emperor held office at Caesarea; six of the fourteen issued bronze coins. During this time the prutah was equal to one quadrans, 64 of which were equivalent to the Roman silver denarius.

The Connoisseur Collection

This selection of material was originally put together by a man with an eye for spectacular quality. We used to call him "Mr. S" meaning SUPERB since that was virtually all that he would purchase. He didn't care if he already had a stamp in his collection; if one offered was as good or better, he would purchase it and put it away for the future.

Alas and alack, "Mr. S" is no longer with us but his stamps live on as a testament to his good taste. His Estate recently contacted us to see if we would be interested in handling the disposition of his collection. Guess what we answered.

The following is just a small portion of his collection since we felt that to offer it all at once would overwhelm the senses. Keep your eye on future issues of MT for futher offerings. Be sure to call to reserve your selections from this choice assemblage. We expect them to sell fast.

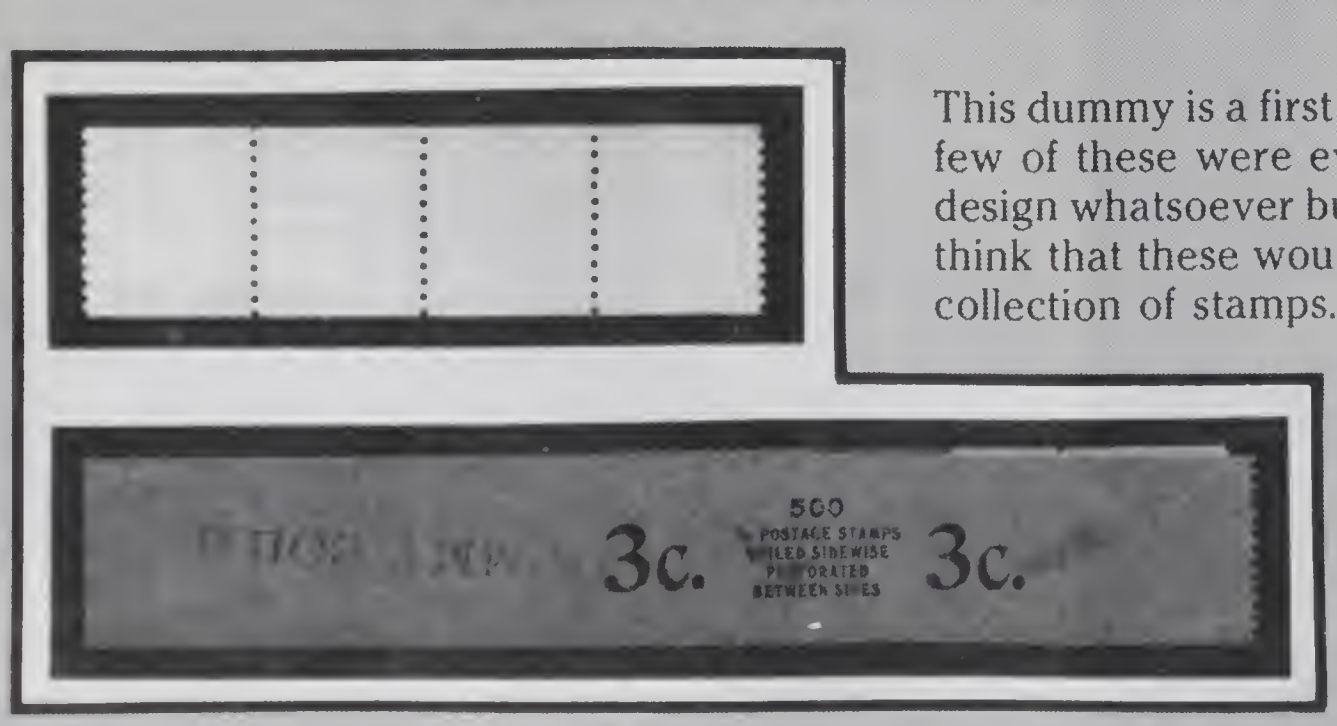
Sc#842 Dummy Coil



This dummy is a first for us. We have been told that very few of these were ever produced. These coils have no design whatsoever but are fully gummed and perfed. We think that these would be an interesting addition to any collection of stamps. **All are in VF-NH condition.**
